PROPOSAL FOR AIRASIA

airasia Games

A daily games channel inside the airasia MOVE app. A reason to open it every day, not only when a trip is booked.

Raja Hafify Bin Zaed · Artifisi Sdn Bhd · October 2026

THE GAP

People open airasia when they plan a trip. Then the app waits.

Flights
When a trip is planned

Hotels
Once a trip

Check-in
Once a flight

Seat sales
When a sale is on

Between trips there is little reason to open the app, so every sale has to win attention back from zero.

THE IDEA

Make airasia the place Asia goes for a daily game.

One games channel inside the app, with a shelf that grows every season. Like Netflix, for short games about the places you could fly to next.

WHY GAMES

Small daily games build the habit

2M+

daily Wordle players within months of joining The New York Times in 2022, up from about 300,000. One short puzzle a day kept people coming back.

<1%

of Netflix members played its games daily in 2022. Big games were bolted on, with no link to why people opened the app.

The lesson: short, daily, and tied to what the brand already stands for. For airasia, that is places.

Sources: Ivey Business School, March 2025; Apptopia data via CNBC, reported by Front Office Sports, August 2022

OPENING THE APP OFTEN

Three reasons to come back

EVERY DAY

A daily puzzle

Three minutes, one new destination a day, a streak to keep and a result card to share.

EVERY SEASON

Event games

A short game that opens each big seat sale, then school holidays, Lunar New Year, Songkran and Hari Raya.

EVERY WEEK

Story games

Longer games played in short sittings, like growing an airline out of KL one route at a time.

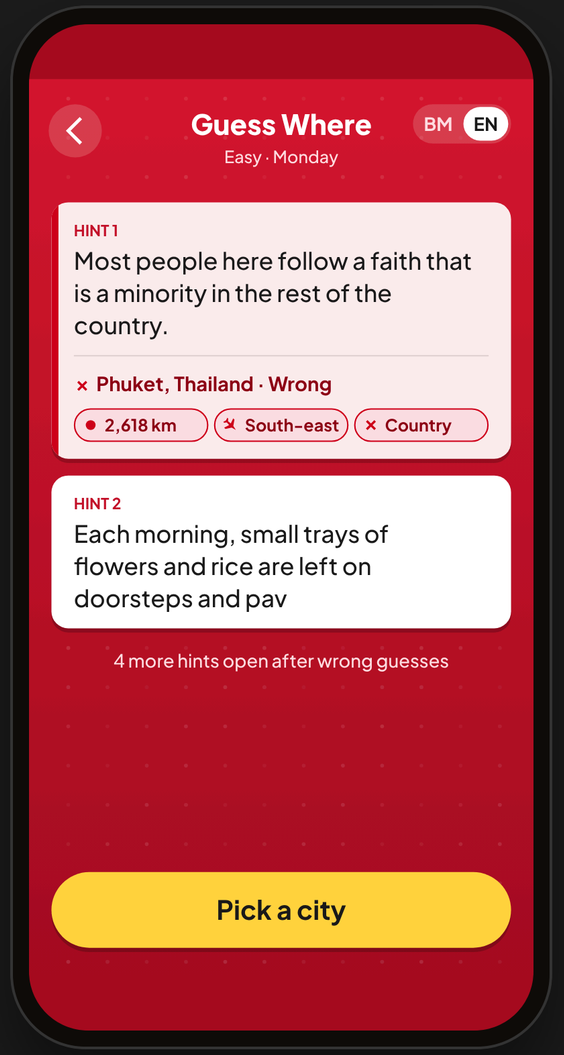

THE DAILY GAME · PLAY IT HERE

Guess Where

One destination a day, told one clue at a time. Guess the city.

- Six clues, from food and festivals down to the airport code.
- Every wrong guess shows how far off you are, which way to go, and if the country is right.
- Ends with a short note on the place and a button to flights there.
- A spoiler-free result to share on WhatsApp, with the airasia mark.

three demo rounds, easy to hard

Playable demo in English and Bahasa Melayu. Clues are drafts.

GUESS WHERE · DAILY AND RANKED

Three puzzles a day, one board for Asia

EASY

A famous place

Keeps the daily habit open to everyone.

MEDIUM

A known name

A city people have heard of but may not place.

HARD

Neighbours

Close cities that are easy to mix up. Counts the most.

- Solve on the first clue for 6 points, on the last for 1. Medium counts double, Hard triple.
- Boards for today, this week and this month, by country and with friends.
- Streaks and top ranks can pay out in airasia points, if airasia wants that.
- First name only, with an option to hide. Answers are checked on the server.

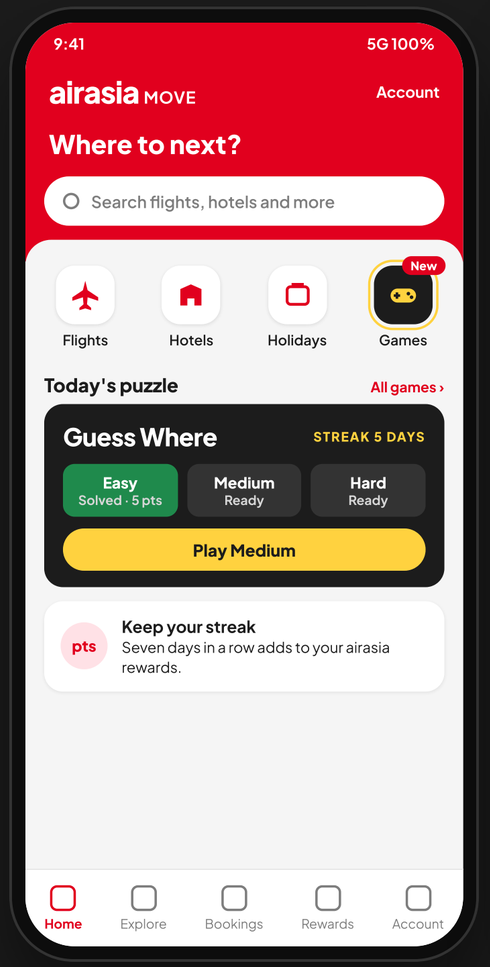

#	PLAYER	COUNTRY	TODAY
1	Aisyah K.	Malaysia	36
2	Nattapong S.	Thailand	34
3	Putri W.	Indonesia	33
41	You	Malaysia	27

Example board. Today's top score is 36: all three solved on the first clue.

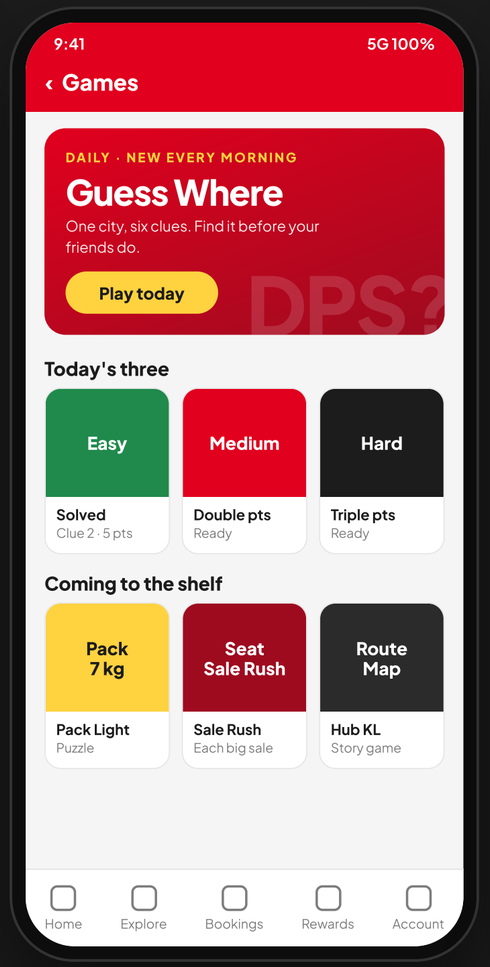

IN THE AIRASIA MOVE APP

A Games button on the home screen

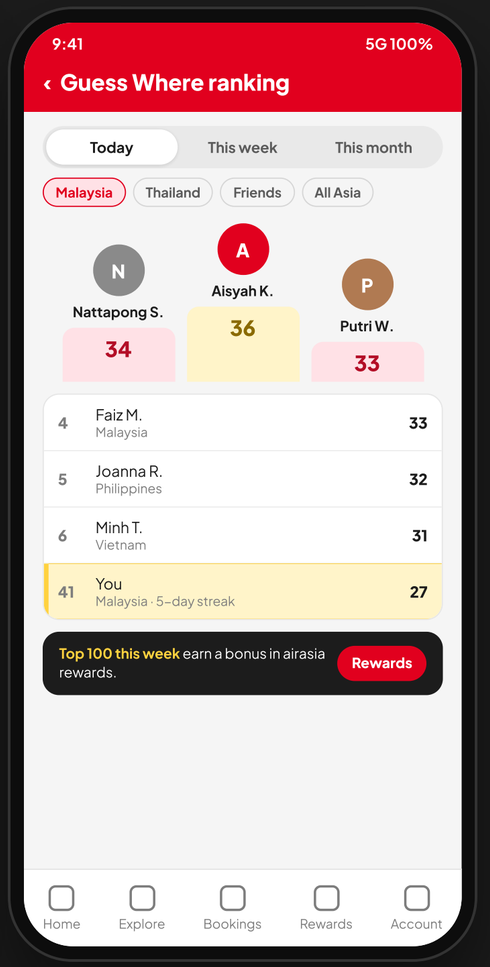

1. Games sits next to Flights and Hotels, with today's puzzle right below.
2. The shelf: today's three puzzles first, then what is coming.
3. The ranking, with the link to airasia rewards on the same screen.

1 · Home

2 · Games shelf

3 · Ranking

Mockup in the style of the airasia MOVE app. Names, scores and rewards are examples.

airasia on every play

MOMENT	WHAT THE PLAYER SEES
Splash screen	“airasia presents” before every game, every time
Share card	Daily results shared to WhatsApp with the airasia mark and a link back
Game to booking	Today's answer is Bali. One tap opens flights to Bali.
Rewards	Streaks and ranks feed airasia rewards, so the game sits inside the loyalty loop
Seat sales	A short game opens each big sale and sends players straight to the deals

THE FIRST SHELF

Four games in the first year

GAME	WHAT IT DOES	WHEN
Guess Where	A daily destination puzzle in English and Bahasa Melayu	Demo ready now
Pack Light	Fit a trip into a 7 kg cabin bag. One packing puzzle a day.	Next
Sale Rush	A one-minute game that opens each big seat sale	From the next big sale
Hub KL	Grow an airline out of KL, one route a week	2027

Guess Where can add Thai, Bahasa Indonesia and Filipino puzzles as the board grows past Malaysia.

Dates after the first game are targets to agree together

HOW IT FITS THE APP

One small add-on, no app rebuild

airasia MOVE app

Adds a Games tab that opens our games in a web view

Games shelf

Hosted by Artifisi, opens inside the app

Back to airasia

Play data to your analytics, buttons to flights and rewards

- New games and fixes go live without a new app release.
- Your developers add it once, and we support them.
- The same games run in a phone browser for campaigns and social posts.

WHERE IT GOES

From one shelf to a games channel for Asia

STEP 1 · 2026 TO 2027

Our shelf

Artifisi builds the first games and proves people come back every day.

STEP 2

Destination weeks

A tourism board or a hotel group takes over a week of puzzles about its city.

STEP 3

Open the shelf

Other studios in Asia publish through airasia. Artifisi curates and keeps the bar.

airasia becomes the app people open for a game in the morning, and book from when the clue lands on a place they want to see.

WHO BUILDS IT

Raja Hafify Bin Zaed

Founder of Artifisi Sdn Bhd. About 12 years in software. At AirAsia, scaled an app from about 1,000 users a month to about 1,000 users a second.

Artifisi makes games, including Orbwalker, and holds Malaysia Digital status.

NEXT STEPS

1. Agree how we work together.
2. Put it in a one-page letter of intent.
3. Your team checks the first month of puzzles and the brand use.
4. Guess Where goes live in the app on a date we agree.
