PROPOSAL FOR IKHLAS.COM

ikhlas.com Games

The home of Islamic games, inside the ikhlas.com app. A reason to open it every day.

Raja Hafify Bin Zaed · Artifisi Sdn Bhd · 28 October 2026

THE GAP

People come to ikhlas.com for big moments. Then the app stays closed.

Umrah

Once in years

Zakat

Once a year

Qurban

Once a year

Fidyah

Once a Ramadan

Between those moments there is nothing to open the app for, so the brand has to buy attention again every season.

THE IDEA

Make ikhlas.com the place Muslim families go for games.

One games channel inside the app, with a shelf that grows every season. Like Netflix, for games parents trust and every age can play.

WHY GAMES

Small daily games build the habit

2M+

daily Wordle players within months of joining The New York Times in 2022, up from about 300,000. One short puzzle a day kept people coming back.

<1%

of Netflix members played its games daily in 2022. Big games were bolted on, with no link to why people opened the app.

The lesson: short, daily, and tied to what the brand already stands for.

Sources: Ivey Business School, March 2025; Apptopia data via CNBC, reported by Front Office Sports, August 2022

Three reasons to come back

EVERY DAY

A daily puzzle

Three minutes, one new puzzle a day, a streak to keep and a result card to share.

EVERY SEASON

Event games

A Ramadan game with one level a night, then Hari Raya, Zulhijjah and the Hijri new year.

EVERY WEEK

Story games

Longer games played in short sittings, like running a stall in Basra for a year.

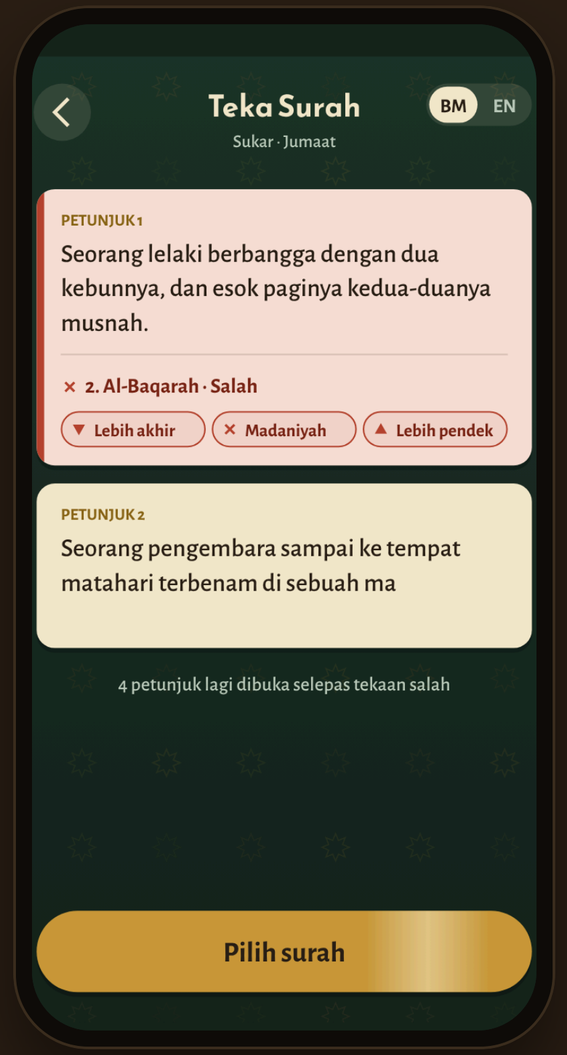

THE DAILY GAME · PLAY IT HERE

Teka Surah

One story a day, told one hint at a time. Guess which surah it comes from.

- Six hints, each an event from the story, never a quote.
- Every wrong guess shows where the surah sits, where it was revealed, and how long it is.
- Ends with a short summary and the verse references, checked by your ustaz.
- A spoiler-free result to share on WhatsApp, with the ikhlas.com mark.

three demo rounds, easy to hard

Playable demo. Hints are drafts for ustaz review.

ikhlas.com on every play

MOMENT	WHAT THE PLAYER SEES
Splash screen	“ikhlas.com presents” before every game, every time
Share card	Daily results shared to WhatsApp with the ikhlas.com mark and a link back
Game to product	The zakat count leads to pay zakat. A qurban game leads to Korban Perdana.
Ustaz partners	A short note from an ikhlas.com ustaz on special days
Press	A joint launch: Malaysian Islamic games, published by ikhlas.com

THE FIRST SHELF

Four games in the first year

GAME	WHAT IT TEACHES	WHEN
Teka Surah	The stories of the Quran, one a day	Demo ready now
Bazaar Basra	Zakat and honest trade	Live 14 Dec 2026
Ramadan nights	One short level each night of Ramadan	Before Ramadan 1448
Adab for kids	Manners for young children	2027

A paid tier can open once there are three or four games worth paying for.

Dates after the first two games are targets to agree together

THE STORY GAME

Bazaar Basra

Basra in the time of Umar. Buy stock on the weekend, run your stall through the week, and at the end of the year count what you own and pay zakat.

No faces, no combat, and Umar appears only in letters. Every zakat ruling is checked by your ustaz.

Screens from the playable mockup

HOW IT FITS THE APP

One small add-on, no app rebuild

ikhlas.com app

Adds a Games tab with our Flutter package

Games shelf

Hosted by Artifisi, opens in the app

Back to ikhlas.com

Play data to your analytics, buttons to your pages

- New games and fixes go live without a new app release.
- Your developers add it once, and we support them.
- The same games run in a phone browser for campaigns.

COST PROJECTION

What the first year takes to build

WORK	TIME	COST (RM)
Teka Surah: build the game	2 weeks	8,000
Teka Surah: first 90 puzzles	2 weeks	8,000
Teka Surah: 30 new puzzles a month	3 days a month, 12 months	28,800
Bazaar Basra	6 weeks	24,000
Ramadan nights	4 weeks	16,000
Adab for kids	4 weeks	16,000
Hosting, fixes and updates	2 days a month, 12 months	19,200
First 12 months	**About 30 weeks of studio time**	**120,000**

Projection at a studio cost of about RM4,000 a week. Hosting runs on Cloudflare at no extra cost at this scale. On the ikhlas.com side: one developer to add the package once, and ustaz review time.

WHERE IT GOES

From one shelf to a games network

STEP 1 · 2026 TO 2027

Our shelf

Artifisi builds the first games and proves people come back.

STEP 2

Paid tier

A subscription in the app once the shelf is full enough.

STEP 3

Open the shelf

Other Muslim studios publish through ikhlas.com. Artifisi curates, and every game passes the same ustaz review.

ikhlas.com becomes where Islamic games are found, starting in Malaysia and Indonesia.

WHO BUILDS IT

Raja Hafify Bin Zaed

Founder of Artifisi Sdn Bhd. About 12 years in software. At AirAsia, scaled an app from about 1,000 users a month to about 1,000 users a second.

Artifisi holds Malaysia Digital status.

NEXT STEPS

1. Agree how we work together.
2. Put it in a one-page letter of intent by mid November.
3. Your ustaz reviews the first puzzles and the zakat content.
4. The games go live in the app on 14 December.
